ABOUT WAXING

PHD Warm Wax

Our normal 'PHD wax' uses an ultra-hygienic, disposable applicator system. There is no risk that wax can be contaminated with dead skin cells.

Peron Rigot Comfort Hot Wax

We have researched and found "Peron Rigot Comfort Hot wax' to reduce discomfort for those who find waxing a particularly sensitive subject! You need to try it to believe the difference -especially for bikini waxing and although it is more expensive, it's worth the extra pennies to reduce the 'ouch' factor! It does take a little longer though .If you would like to try our Comfort Hot wax be sure to specify when booking your appointment.

TRUST US! You may have heard the horror stories about people being ripped to shreds by inexperienced therapists who don't know, nor care what they're doing, but you're in safe hands with us, we are fully trained and use the best wax on the market.

TOP TIP: Exfoliating the night or morning before your appointment will give better results!

PLEASE NOTE: HOT WAX IS EXTREME INTIMATE WAXING

If you're having Extreme Waxing, you'll need to get naked from the waist down to get a perfect wax, so you need to leave your modesty at the door. Asking to leave your underwear on is a bit like going to the hairdressers and asking to leave your hat on.

*"Very Friendly & good results,
best place I have been to"*
